Frequently Asked Questions

WHAT IS BODYTITE?

BodyTite is a great solution for individuals who are looking to reduce fat without the saggy, wrinkly skin. It also helps improve saggy skin after weight loss or due to aging. BodyTite is a minimally invasive procedure that shapes, tightens and lifts without the scalpel or scar. You are left with surgical-like results without the added downtime. BodyTite uses RFAL (Radio-Frequency Assisted Lipoplasty) technology that addresses some of the shortcomings associated with traditional liposuction or surgical body lifts.

WHAT AREAS CAN BE TREATED?

If you can imagine it, you can do it: stomach, arms, chest, knees and inner/outer thighs are some of the most common treatment zones.

Multiple areas can be treated in one visit. Each zone will take approximately 15 minutes of treatment.

HOW QUICKLY WILL I SEE RESULTS?

Results can be seen immediately, with best results noticeable after 3-6 months.

WHAT IS THE DOWNTIME?

Depending on the treatment area, downtime can be from 1-2 days up to 10 days.

WHAT ARE BODYTITE EFFECTS?

BodyTite gently treats fat in stubborn areas while tightening the skin, helping you sculpt your body into its ultimate shape.

Technology

BodyTite is a safe and effective minimally invasive procedure, where a wand is inserted under the skin to melt fat inside while tightening the skin on top. This is a new procedure that is the next best thing to a surgical tummy tuck, for patients who don't want to have a dramatic surgery, this is the perfect solution.

The treatment can be performed under local anesthesia or even light sedation it provides surgical results without the scars. Patients can be assured of a minimally invasive aesthetic procedure with decreased pain, swelling and downtime, and avoid larger surgical procedures.

1 treatment is needed and results continue to improve up to 3 to 6 months afterwards.

BENEFITS

Non-excisional · No scars · Superior body contouring · Significant body tightening results (up to 40% skin contraction observed in clinical studies) · Uniform treatment · Consistent results · Less bruising, swelling and pain · Shorter downtime · Improved safety

SAFETY:

Built-in safeguards assure high safety levels. FaceTite's proprietary technology includes the regulation of skin temperature, impedance levels, energy monitoring, and cut-off levels.
